ALUMNI DIRECTORY OF ST. OLAF COLLEGE

The present number of the St. Olaf College Bulletin aims to present a complete list of the graduates of the college, their academic and professional degrees, and their present occupations and addresses. A locality index, an alphabetical index, and a list of alumnae by their married names are appended.

The arrangements of the graduates is as follows:

1. Graduates with the Master's degree.
2. Graduates with the Bachelor's degree.

This list embraces all the graduates of the college, arranged by classes, including the graduates of the college department of the United Church Seminary (1891-1900) as indicated by (U), and the graduates of Red Wing Seminary (1910-1917) as indicated by (R). When an additional degree, such as (B.M.) or (M.A.) appears after a name in parentheses, it indicates that this degree was also conferred by St. Olaf College. Also included in this particular listing, at the end of each class, are the names and addresses of as many former students who would have graduated in that class as we have on record. This listing we wish to enlarge with future issues of the Alumni Directory and ask that all former students send in the necessary information. In this listing (Dr.) indicates the person is either a physician or a dentist but complete information has not been furnished.

3. Honorary degrees.

ADDENDA

Even before this new Alumni Directory was off the press, many addresses had become obsolete. The fact that the Directory had to be printed a section or two at a time and the first sections were completed as early as November 1947 made it impossible to keep up with this constant stream of address changes. To give you as up-to-date a record of the Alumni as possible, changes coming to our attention after sections were printed are listed separately as the final section of the Directory.

We shall also plan to print a list of address revisions in each issue of the Alumni Magazine.

Any errors or changes in Alumni Directory listings should be reported to the Alumni Editor at once so that corrections may be issued regularly.
